In your progressive chart, Transit Cycles are based on your full name at birth and are represented by letters, not numbers. Transit Cycles and Essence Cycles run from birthday to birthday. Each Personal Year cycle runs from the beginning of the year to the end of the year. It's period of influence, however, varies based on the month of birth, and is felt most strongly during the months closest to the month of birth. Personal Year cycles make their presence felt gradually and tend to overlap for several months. A graph showing the actual phases of influence can be found at http://www.decoz.com/numerology_tutor_personalyearcycles.htm, or go to decoz.com and click on Tutorials in the top of the home page, then select the article "Your Personal Year cycle; when does it really start?"
